J. V. VICKERS

Tenders His Resignation as County Treasurer.

Treasurer J. V. Vickers has tendered his resignation as treasurer to the board of supervisors to take effect at the end of this menth.

The resignation caused a ripple o surprise; however, it, was generally expected when it became authoratively known that the supreme court decision of the elassification law declared that act valid and directly affected the salaries of the incumbent officials of the territory under the classifiaction.

In the case of the treasurer's salary in Cochies county it was cut over one half, from that of \$3,000 to \$1,400 per year, and from a remunerative standpoint, considering the duties, risks and immense bond and responsibility in the handling annually of over \$100,-000 of county funds, to a man of Mr. Vickers' business interests, the compensation is small. To a PROSPECTUR reporter the treas-

urer stated that as soon as he had seen a copy of the supreme court decision and understood the law was interpreted to include the present efficials who, when elected, were understood to receive the salaries as fixed by the law then existing, he resolved upon this

However, warranted, as Mr. Vickers certainly is in withdrawing under the circumstances, through a law which by a clerical error must stand as affectto m ing present officials, yet his resignation is to be regretted. Mr. Vickers has been a thoroughly efficient official. Faithful to his duties, accommodating to individuals he has won the confidence and esteem of all.

Ep. Prespector :- In the portion o the article criticised by the Citizen's correspondent, reference only was made to the act of congress of 1873 and the fact stated that no one outside of congress and very few on the inside knew anything of the intentions of the "McKinley bold-bug" element who were then lurking like a thief within the sacred precincts of the nation's legislative balls to take advantage of an innocent, centented and confiding public. Then and at that time it was and at to other that the greatest of all crimes was committed—the demonstisation of silver-and that, too. without the knowedge of anyone except the conspirators, notwithstanding any of the correspondent's alleged sauses that have contributed to depreciate the native value of silver, and to appreciate the value of gold prior to 1873.

And right now I will say in addition to the article criticised, in all great reforms the interests of the few must be sacrificed to the many ; hence the creditor class, by far the smaller, should suffer if any. The 200 cent dollar is a is a dishonest dollar. The impoverished laborer and farmer are crying for relief. We can cure all these evil conditions by going back to that era of equality before 1873.

Mrs. S. A. Kell, of Pomona, Cal., had the bad luck to sprain her ankle. "I tried several liniments," she says, "but was not cured until I used Chamberlain's sale by Druggists.

SHERIFF FLY

Posse Return From Month's Pursuit.

Sheriff Fly, Deputy Alvord and Hildreth arrived Sunday night from their hunt after the Nogales robbers. The sheaff who was on the trail with the posse for over a mouth, have experienced many hardships. Determined if within the bounds of possibility to bring to bay and capture the band of outlaws, the plucky posse pushed ferward on the trail.

They encountered heavy rains which bliterated the tracks and at times rendered pursuit hopeless. When the trails were again found the robbers were pushed to such an extent that they resorted to riding at nights, and knowing they were pursued sought the roughest country immaginble and tried every means to throw the posse off the trail. Without doubt many of the ranchers

have been intimidated by the robbers and food, horses, and even aid has been tendered them. The trail of the robbers who were followed into Mexico as before stated in the PROSPECTOR have now returned toward the line and evidently headed to join the two partners who were seen about Mud Springs.

When the posse left ler Mud Springs to court the acquaintance of Black was not cured until I used Chamberlain's to court the acquaintance of Black property and utens's belonging to and situated property and utens's belonging to and situated upon said ranch, which personal property is detectifying to its efficacy."
